For Sale.

OUR DRUG BUSINESS located in San Francisco, Cal. After our best wishes and expressing our thanks for the liberal patronage we have received for more than twenty-one years, during which period we have been steadily engaged in the Drug business in California, we beg to say in consequence of the rapid growth of Dr. Walker's California Vinegar Bitters, now spread over the United States and other countries far beyond, we are necessitated to devote our entire time to the said business.

We are the Oldest Drug firm on the Pacific Coast and the only one, continuous under the same proprietors since 1848, and have determined to sell our large, prosperous, and well established business on favorable terms.

This is a rare opportunity for men with means, of entering into a profitable business with advantages never fore offered.

For particulars enquire of

A GREAT MEDICAL DISCOVERY

Dr. WALKER'S CALIFORNIA

VINEGAR BITTERS

Hundreds of Thousands

Bear testimony to their Wonderful Curative Effects.

WHAT ARE THEY?

FOR FEMALE COMPLAINTS, whether in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal. ☞ Send for a circular.

They are a Gentle Purgative as well as a Tonic, possessing also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs.

THEY ARE NOT A VILE

FANCY DRINK,

Made of **Poor Rum, Whiskey, Proof Spirits and Refuse Liquors** doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free **from all Alcoholic Stimulants.** They are the **GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE** a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to direction and remain long unwell.

$100 will be given for an incurable case, provided the bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys, and Bladder, these **Bitters** have been most successful. **Such Diseases** are caused by **Vitiated Blood,** which is generally produced by derangement of the **Digestive Organs.**

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys and a hundred other painful symptoms, are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid liver and bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald-Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effect.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul, and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

PIN, TAPE and other **WORMS,** lurking in the system of so many thousands, are effectually destroyed and removed. For full directions, read carefully the circular around each bottle, printed in four languages—English, German, French and Spanish.

Their effects abundantly show how much they excel all other Pills. They are safe and pleasant to take, but powerful to cure. They purge out the foul humors of the blood; they stimulate the sluggish or disordered organ into action, and they impart health and tone to the whole being. They cure not only the every day complaints of everybody, but formidable and dangerous diseases Most eminent clergymen, most skilful physicians, and our best citizens send certificates of cures performed and of great benefits they have derived from these Pills. They are the safest and best physic for children, because mild as well as effectual. Being sugar coated they are easy to take; and being purely vegetable, they are perfectly harmless.

VEGETABLE SICILIAN HAIR RENEWER.

ITS EFFECT IS

MIRACULOUS.

IT IS A PERFECT AND WONDERFUL article. Cures Baldness. Makes hair grow. A better dressing than any "oil or pomatum." Softens brash, dry and wiry hair into Beautiful Silken Tresses. But, above all, the great wonder is the rapidity with which it restores GRAY HAIR TO ITS ORIGINAL COLOR.

The whitest and worst looking hair resumes its youthful beauty by its use. It does not dye the hair, but strikes at the root and fills it with new life and coloring matter.

The first application will do good; you will see the NATURAL COLOR returning every day, and

BEFORE YOU KNOW IT,

the old, gray, discolored appearance of the hair will be gone, giving place to lustrous, shining and beautiful locks

Our New Governor.

The new Lieutenant Governor was sworn in yesterday. British Columbia has been from the 20th July to the 14th August virtually without a Government; for although Mr Trutch had his commission in his pocket it could not take effect until he entered the Province; and it must be admitted that the Province has behaved admirably. When first announced, the appointment of Mr Trutch took the public completely by surprise, and candor compels us to admit that it produced a slight murmur of disappointment in certain quarters. Not by any means that the position was thought to be above the reasonable aspirations of the man; nor that the man was not in every respect well qualified to fill the position. Indeed, the public mind had marked out for him a more enviable, and, if not higher, at least, more lucrative position than that of Lieutenant Governor. But the people had become so accustomed to think of a first class Canadian statesman in connection with the position that the sudden and wholly unexpected announcement disturbed the equilibrium of the public mind. Sober second thought, calm reflection has not only tended to reconcile the public mind to the appointment, but, so far as we have been enabled to learn, it has led all impartial and thoughtful persons to approve of the appointment, and we are glad to think that the new Lieutenant Governor will, after all, commence his administration under much more favorable circumstances than was at first apprehended, even by many of his friends. So far as we can read the temper of the public, there is a very general conviction that the thorough knowledge of the Province and its people possessed by Mr Trutch will be of very great assistance to him in his new position. All admit his ability, and even the most ill-natured say that they are willing to give him a fair trial, and judge him by his acts. We believe this is all that the new Governor wants, and we shall be greatly mistaken if, judged fairly and impartially by his acts, the verdict of public opinion be not in his favour. If he should be fortunate in drawing around him the right sort of advisers—men of experience, moderate views and liberal minds, and work out the system of Responsible Government in its true spirit, his administration will be a popular one, and any lingering prejudices reflected from the late essentially unpopular form of Government will soon be forgotten. The people of British Columbia should not fail to recognize in the appointment of one of themselves to fill the position of Lieutenant Governor, a compliment which has not been paid to every Province of the Dominion, and while the people should feel a little pride in demonstrating their own fitness for self-government, they should also feel a pride in demonstrating to the rest of the Dominion that one of themselves was fit to be Governor. Indeed we feel well assured that good men of all classes and of every locality will be prepared to meet the new Governor as well as the new Government in a friendly, liberal spirit, and extend a generous support to any administration that may be formed, provided it should evince an honest desire to do the right.

European Mail Summary.

DATES TO JULY 11TH.

The Queen was present at a garden party given at Chiswick by the Prince and Princess of Wales. On the following day Her Majesty was visited at Windsor by the Crown Prince and Princess of Prussia. Yesterday a review was held at Aldershot, at which Her Majesty and the Crown Prince of Prussia were present. Great preparations had been made, and it was expected that 20,000 men of all arms would have been paraded before the Royal visitors; but the weather interfered with the success of the spectacle, and it was limited to a mere sham fight hurriedly scrambled through. The Emperor of Brazil has visited various places of interest in the metropolis. He was present during the Divine Service in the Central Synagogue, Portland street, and also visited the Reform Synagogue in Upper Berkeley street. In the House of Lords the subject discussed were a recent vote of Commons with regard to Harrow School, the proposed abandonment of the Alderney fortifications, the want of harbors of refuge on the north-eastern coast, and the management of Irish railways. Last night the Duke of Richmond gave notice of a motion against proceeding further with the Army Regulation Bill at present. A discussion on Irish Administration followed. An attempt is to be made before the close of the Session to introduce into Parliament an Emigration Bill, in favor of which a "mass meeting" of the people is called for next Sunday in Hyde park. A Conservative Working Men's Demonstration was held at Bristol. The further hearing of the Tichborne case was adjourned on Friday until the 7th of November next, the Lord Chief Justice cautioning the jury not to allow their minds to be influenced by anything they might hear out of Court. From the Cape we learn that a French ship, from Pondicherry to Martinique, had been wrecked, upwards of 150 bodies having been washed ashore. The Emperor of Germany left Berlin and proceeded by Frankfort and Wiesbaden to Ems, everywhere meeting with an enthusiastic reception. The London correspondent of the *Augsburg Gazette* denies that he is author of the letter on English politics which appeared under the *nom de guerre* of Truiz Baumwell. He says he does not derive his knowledge of English politics from Conservative working men's institutions. A complimentary dinner was given at Crystal Palace to the artists of the Comedie Francaise. Lord Bugorin was in the chair, and Lord Granville was among the speakers. At Edinburgh Miss Jex Blake has been found liable in the expenses of the action at her instance against Professor Christison's assistant. A collision occurred off Plymouth between the ship Madagascar, of South Shields, and the screw steamer Widgeon, of Cork. Both vessels sank. Sixty-one persons were picked up by a trawling sloop. At the opening of the Assizes in King's County, Longford, and Drogheda, the Judges congratulated the juries on the lightness of the calendars. Mr John Madden has issued an address to the electors of Monaghan as a representative of Home Rule for Ireland.

Dominion Mail Summary.

The mail brought by the Sparrowhawk places us in possession of Canadian exchanges to the 26th ult, from which we compile the following summary.

The Ottawa *Times* says Mr Sandford Fleming will not at present be able to leave for British Columbia as originally proposed, being so much occupied with with Intercolonial Railway matters, and with duties connected with the Pacific Railway survey, which require his presence in Ottawa.

The Hamilton *Spectator* of 26th says, the Minister of Public Works starts for British Columbia on Friday night next (28th). Hon Mr Aikon goes to Manitoba about the same time. His business there is in connection with the settlement of the land question.

A cable dispatch dated July 20th says:—The prizes of the Wimbledon rifle meeting have been distributed by the Princess Louise. Several representatives of the Canadian volunteers were successful competitors, and have received their awards at the hands of Her Royal Highness.

Col Robertson Ross inspected the Halifax militia of that city on the 21st and highly compliment the body, declaring it to be second to none in the Dominion.

It is said that the result of the census just taken will not be announced till Parliament meets. It is also stated that, according to it, the population of Ottawa reaches fifty thousand. It was only fourteen thousand ten years ago.

Hill, Governor Archibald's private Secretary, was the eldest son of Rev Geo W Hill, rector of St Paul's Halifax. Particulars of the circumstances under which he had met a violent death had not reached Canada.

The Government at Ottawa had received dispatches from Governor Archibald with correspondence between the United States Consul at Fort Garry and Secretary Boutwell of the United States Treasury, relative to the transportation of immigrants from Ontario to Manitoba through American territory. The United States Government have evinced a very friendly spirit, and show a desire to facilitate the passage of emigrants by all the means in their power. Horses, cattle, and other dutiable articles will go through in bond.

Earl de Grey, son of the Marquis of Ripon, was in Canada.

Mexico, Central and South America.

MEXICO.

The *Two Republics* records the death of Governor Bustamante, who died Wednesday, 14th June, at 3 o'clock. The deceased had been but a few months appointed Governor of the Federal district.

PERU.

His Excellency the President has nominated His Excellency Don Pedro Galvez, who for some time has held the post of Envoy Extraordinary and Minister Plenipotentiary to the Courts of St James and France, to the same position at the Court of Lisbon.

The British ship Wealth of Nations, was wrecked on the coast off Callao on the 11th of June, when the Captain and eight of the crew were drowned.

CHILE.

The engineers contracted by the Buenos Ayres Government are engaged on the survey of the Planchon pass, which appears to be the most desirable route for a transandine railway. Every facility has been afforded to the surveying party, and a bill will shortly be presented to Congress for a grant defraying the expenses of the survey.

The early part of June is announced as the probable period when the San Felipe and Lailia line will be opened for traffic.

One of the Chile newspapers states that during the month of May 3 320 persons sailed north to work on the Peruvian Railways.

PANAMA.

The *Star* and *Herald* of the 4th ins. thus comments on the results of the Darien Canal search: "The United States exploring expedition have finished their labors for the season. The principal result has been to narrow the field of search, in pointing out the regions of the Isthmus where a canal route is impracticable.

There is nothing new to report from Chiriqui, except an earthquake, which took place there on the 26th, at 7:50 P M. It was rather severe, but no damage was done.

A CARD.

CAPT BOER of the bark CORNELIS wishes to state in the Colonist that the Pilot in charge of the vessel at the time of the accident was in no way to blame. The disaster occurred from causes beyond his power to control, and the article in the Mainland Guardian was unjust and incorrect.

CARD TO THE PUBLIC.

A FEW MONTHS AGO A CARD APpeared in the British Colonist. It was dated January 24th, 1871, and was from Mr Schultz, in which he begged to state that great injustice had been done him because of certain reflections cast on his character by an article which appeared in the Alaska Times in connection with my sudden departure from this city. He also stated that he bought my furniture and paid me for it, and that he advised me to remain in the Colony. All of which I would distinctly declare to be a downright falsehood. I have never received one cent from Mr Schultz, neither will he return me my property, although I have repeatedly requested him to do so.

To the Electors of Nanaimo District,

GENTLEMEN:—With such a Requisition before me, I cannot hesitate to accept the nomination to represent the important District of Nanaimo in the Local Legislature; nor, with such support, so cordially proffered, can the issue be thought doubtful.

Most of you are already so familiar with my political views that anything like an extended delineation of them would scarcely appear to be necessary upon the present occasion; and yet, in coming before you for election, a brief exposition of the cardinal tenets of my political creed may be deemed proper.

And, first of all, permit me to congratulate you upon the final accomplishment of Union upon terms which can hardly fail to confer substantial advantages upon this Province. It now remains for the people, by a wise and careful choice of Representatives, to enjoy the benefits of a charge which confers upon them the full powers of self government.

The acceptance of the Canadian Tariff appears to offer the only satisfactory settlement of a question, the continued agitation of which is calculated to seriously disturb commerce and injuriously affect every interest. I shall, therefore, if elected, be prepared to vote for the immediate acceptance of the Canadian Tariff.

To make fitting provision for the education of the young will constitute one of the most important duties of the local administration; and I shall be prepared to advocate the immediate establishment of a system of Free Schools which will place a liberal education within the easy reach of every child in the Province.

The possession of a large industrial population being essential to the attainment of general well-being, a system of land grants by which every bona fide settler coming into the country might readily acquire a Free Homestead, exempt from taxation and from all legal process, will receive my earnest support.

Economy in the administration of the public affairs the people have a right to expect and demand; and inasmuch as the machinery of the new Government will be less complex and ought to be less expensive than the old, it should be one of the very first acts of the Executive to make a complete revision of the Civil Service, with a view to the utmost economy compatible with efficiency, and to prepare a new Civil List Bill based upon the most thorough retrenchment to take the place of the present one. Such a measure would have my hearty support.

The question of Chinese labor, already seriously affecting some communities in this Province, threatens to assume much larger proportions in view of the public works soon to be undertaken; and I shall give earnest attention to the application of some legislative remedy by which civilized labor would be effectually protected against that of the Mongolian race, and which would, at the same time, compel that class of our population to bear their full share of the financial burdens of the country.

The excellent financial terms obtained from Canada will place large revenues annually at the disposal of the local administration; and I shall advocate the abolition of the present Road tax and the adoption of a liberal system of grants for local improvements; and my best and most earnest efforts shall be exerted to secure for the District of Nanaimo, under this head, that substantial share of public expenditure to which its importance, as the largest producing community in the Province, entitles it and which has been strangely denied it in the past. A commodious and substantial school house, a better class of public buildings generally, a second bridge connecting the two sections of the town, the proper formation of streets and the construction and improvement of main roads and bridges throughout the agricultural parts of your District may be regarded as amongst the more immediate wants of Nanaimo.

There are other interests, such as Harbor Improvements, Channel Marks and Lights, Telegraphic and Railway Communication, improved Postal Service, proper regulation of Indian Affairs, and the like, which, coming under the head of Federal legislation, do not claim particular attention here, yet all of which, should I be elected as your representative, would be the objects of my earnest solicitude.

As it is my intention to meet the Electors personally and explain my views more fully than it would be possible to do in the form of a written address, I trust it will be unnecessary to say more at present.

Should you elect me as your representative in the local Legislature, it will be my anxious and constant endeavor to promote in every possible way the best interests of your important District.

Thanking the signers of the requisition for the assurance of their confidence and support therein conveyed, and respectfully soliciting the suffrages of those of the Electors who have not had an opportunity of joining in that Requisition,

I have the honor to remain,
Gentlemen,
Your obed't serv't,

To the Electors of Vancouver Island District.

GENTLEMEN:—In response to the solicitation of a number prominent gentlemen residing in the different settlements of your Electoral District to offer myself as a candidate to represent your interests in the House of Commons, I have, after mature consideration, consented to do so, and have now the honor to solicit your suffrages at the approaching election.

The measures that a member of the House of Commons may be called on to deal with being different from those of a member of the local legislature, being in their nature more national, it is doubtless expected that I, as a candidate, should advert to at least some of them that more directly concerns your interests. I will say, then, that having been one of the earliest advocates of a Canadian Transcontinental Railway, I shall, if elected, consider it to be my paramount duty in view of making it a grand national success, to insist that the Terminus shall be at Esquimalt, and that the line shall traverse the entire South-Eastern Coast of the Island from Johnson Straits.

Under the Terms of Union with the Dominion, it is the province of the local legislature, and not of the Dominion Parliament, to decide as to the kind of tariff that the people of British Columbia deem to be best suited to their varied industrial interests during the next ten years. Should, however the question come before the Dominion Parliament, I shall endeavor to have the tariff so framed as to meet with the concurrence of the agricultural, mining and commercial interests of your district.

As the Dominion now possesses exclusively the right to manage our postal and telegraphic affairs, I shall endeavor to secure for the Eastern Coast a bi-weekly mail steamer of a superior class to the one now plying on the coast,—and also better mail facilities in each settlement; and as I deem it to be of great importance commercially to have the most rapid means of transmitting intelligence between Nanaimo and Victoria, I shall urge on the Federal Government the importance of the early construction of a telegraph line to connect the two principal towns in the province.

The increasing importance of the commerce of the Gulf of Georgia renders it necessary to have more lighthouses. I shall therefore make the most strenuous exertions to induce the Federal Government to build a lighthouse at Nanaimo at once and to erect others elsewhere as soon as possible, to ensure greater safety and certainty in navigating the Gulf.

With respect to the Indians I will urge that they be settled on Reservations, under the superintendence of Government agents, where they may, with the assistance of the Government, be taught the arts of civilization, and thus have their social, moral and religious conditions rapidly improved.

The question of the early construction of a Marine Hospital at Nanaimo I deem to be deserving of serious consideration.

The Geological Survey now begun will doubtless be of great practical advantage to the country,—and anything that I may be able to do to ensure the geological exploration of the vast mineral wealth of your district shall not escape my attention.

The fisheries along our coast promise to become very profitable, and as the Dominion Government has agreed to extend its protection and encouragement to that valuable and important branch of industry, I will endeavor to secure for your district its full share of any aid that may be appropriated for that purpose.

Not being able at this time to explain my views at greater length, I will take an early opportunity to meet you personally and collectively in the different settlements, when I may bring under your notice other questions of a Provincial and Dominional character.

In conclusion, Gentlemen, if you should do me the honor to return me to the House of Commons as your representative, I pledge myself to faithfully serve your interests to the best of my ability.

I have the honor to be, Gentlemen,
your obedient servant,
ROBERT WALLACE

OMINECA.

[FROM OUR TRAVELING CORRESPONDENT.]

FORKS OF SKEENA, July 21, 1871.

I arrived here yesterday from Germansen creek. The prospects in the Omineca country are becoming more encouraging. Four new creeks were struck in one week.

MANSON CREEK,

emptying into Manson river, discovered by Bob Howell, is a long creek and prospected from 25 cents to $2 as far as it had been tried. It is shallow and contains about one-third as much water as Germansen creek. It had been staked off for about 11 miles. It is situated about 10 or 11 miles east of Germansen creek.

ELM GULCH

discovered by Black Jack and Shep Young,

LOST CREEK,

discovered by Jim Carson and Patsey, and

ROSS CREEK,

discovered by Ross, are all reported rich. The last three creeks are tributaries of Manson creek.

Just as I left, discovery claims on

THREE OTHER NEW CREEKS

were recorded.

The water on Germansen creek is lowering fast. Miners are busily employed in making wing dams. The creek is prepared for a great distance, in which to turn the water, so that in about 10 days all will be busily washing there.

TWO SAW MILLS

are about completed at a distance of two miles from each other. Supplies of all kinds are very scarce and dear. Merchants appear to have lost their usual energy. Beans, bacon, sugar, mining tools and many other things could not be got at any price when I left and very little appears to be coming in. There are about 1100 or 1200 men in the country and the consumption must be nearly two tons per day. Many are leaving on account of the scarcity and dearness of supplies.

Goods could now come through by the Skeena route as far as Babine lake, and by Babine Fort there is an easy and cheap way to forward them to the mines. Until this route is thoroughly opened things will remain in about the same state. Mr Woodcock's trail will soon be cut through to Babine. It will be the best pack trail in British Columbia. R.

Private Letter from Arctic City.

ARCTIC CITY, July 21, 1871.

FRIEND THISTLE,—I write these few lines to let you know that I am still living and have a prospect of living a little longer.

The prospects of the country never looked brighter in this part. There have been four new discoveries made since the suspension of work on Germansen creek caused by the high water. One stream is called Manson river, which empties into Findlay's branch. The other three streams are tributeries of Manson river and about 15 miles due east from Germansen creek. The prospects are good; but a great drawback is the scarcity of provisions. Flour on the creek is $65 per 100 lbs; bacon, $150 per 100 lbs. Everything else in proportion. There are about 1200 men in the country and up to this date not 100 men have left. The miners have commenced to put in their wing dams again. The water is falling fast. I expect to see this a pretty lively camp this fall. There is any amount of cattle on the way in. Only a few have arrived yet. But I need not write—the COLONIST will tell you all. JOHN CARRAGHER. (Big Jack.)

Letter from Skeenamouth—The Lost Men.

SKEENAMOUTH, Aug 8, 1871.

Everything quiet here. About fifteen men returning from the upper country, half of whom are from the mines. Latest accounts from Germansen Creek are to 20th July. Water still too high for much work, though all will hold out if possible. Good prospects were obtained in several new creeks said to be as good as Germansen. All have confidence in the richness of the mines. The trail from the Forks to Babine Lake is supposed to be completed. Two more pack trains in addition to Captain Moore's are on the trail, so I hope merchants will ship goods to the mines as there is a scanty supply.

THE MEN WHO WERE LOST

about the 6th of July, between Babine and Tatlah Lakes, have made their way out, with the exception of three, who it is very certain are lost for ever. I can only give you the name of one, John Labalister, who has resided at Burrard Inlet the last two or three years. Respectfully yours,

M. IRELAND.

IT is reported that the salary of the Lieut Governor is $10,000 per annum.

Peter Cargotitch's Statement.

Mr Peter Cargotitch left Arctic City on the 24th of July and brings eight days' later news. On the 19th July the first pack-train —90 animals loaded with provisions from Montana—reached Germansen creek and was received with great rejoicing by the half-starved miners, who will present the owner of the train—Perry Kent—with a gold medal Provisions decreased 25 per cent in price immediately on the arrival of the train. Beef fell from 60 to 35 cents. Flour fell to 40 cents per pound. Five hundred more pack animals, from Montana, and Harper with 250 head of beef cattle, are on their way in Alex Jack, who bought a claim on Germansen creek, abandoned it and has taken up a claim on Black Jack Gulch, which he pronounces the richest gold diggings in the world. Ike Stevens & Co were taking out $40 and $50 a day on Germansen creek. The Cornish company, working the beach in front of Arctic city, were taking out an ounce a day. The country is greatly excited over the new discoveries and now that provisions are plentiful, splendid results are anticipated. Mr Cargotitch started with eleven men from Tatlah, only three of whom got through to Babine lake. It is supposed that 15 men were lost and starved to death between Babine and Tatlah lakes in attempting to get through the Frying Pan Pass.

The weather at the diggings was wet with a great deal of thunder and lightning. On the 15th of July there were almost incessant flashes of lightning and claps of thunder and the day was as dark as night. Work was suspended and rains were heavy. Elmore's goods were all seized at Hog'em by the Sheriff.

Mr Perry Kent says he will contract to freight goods from Yale to Germansen creek by way of the new trail for 16 cents per lb The round trip between Stuart's lake and Germansen can be made in two weeks. The only sickness in the diggings was scurvy, of which there were a few light cases.

Two new houses are being built at the Forks of Skeena.

The Lost Men.

Mr Alonzo Nellis, who arrived on the Otter, was one of a party of four who were lost in the mountains, but he, fortunately, fell in with Babbington's party and was saved with them. He says the three men who are still missing had neither grub nor shooting-irons. When he left them they had not tasted food for five days and were greatly reduced. He waited on the Skeena two weeks for them, but they failed to put in an appearance. His opinion is that all three have perished in the dense and pathless forest. He furnishes the names of John McLeod and John Ballister, as two of the missing men. The third man's name he did not know.

From Comox —Destructive Fire—The Whalers—Farming.

On the 5th inst, between 3 and 4 o'clock in the morning a fire broke out in an Indian lodge at Comox, situated near the H B Co's store and spread with great rapidity. In a few minutes the lodge and three adjacent lodges were wrapped in flames and were quickly consumed, together with all their contents. *Mr* Jas Thompson, a farmer, gave the alarm and aroused Mr Horne, the Company's agent, who at once proceeded to the scene of of the conflagration and with Mr Thompson senior and junior, and a servant man, prevented the spread of the flames. The Company's powder was carried out by Mr Horne. The Company's store and other buildings were schorched but, through the exertions of the gentlemen named. were saved. The Indians lost blankets and all their iktas. One man lost 100 blankets. The origin of the fire is believed to have been accidental, although the tribe were absent getting berries on the islands. They blamed an old Indian and wanted to shoot him, being only prevented from killing him through the exertions of Mr Horne and Mr Thompson.

The British Columbia Whaling party have got two whales and the Dawson party have taken no whales. A large whale had come ashore at Point Holmes, Comox. He had been struck by one of the parties.

The farmers had got nearly all their hay and some of their barley in. The yield will be large. New settlers are arriving and taking up land almost daily.

CAPE COLONY.—At a large and influential meeting held at Grahamstown recently, it was resolved to memorialize Parliament not to adopt Molteno's motion in favor of Responsible Government......The news received from the Diamond Fields lately has been most encouraging. The 'finds' have been much more numerous than usual and have included a large proportion of very valuable diamonds. Among the 'finds' reported in the papers are diamonds of 93, 83½, 79, 71, 66, 53½, 42½, 39½, 33, 25¼, 23¼, 23, and several of about 15 carats. New fields have been discovered, and are being worked with much success. It is said that a Mr Bisset, who was one of the first at a new rush on Spence's farm obtained in three weeks diamonds valued at £10 000......Mrs Van der Vreed was standing by her husband's claim at Du Toit's Pan suddenly, when she observed something glittering on one side, and told the native to pick it out. He did so, and it turned out to be a magnificent straw colored diamond of 79 carats, perfect in shape and without blemish. A correspondent writes us under date 10th May:—"This morning, before breakfast, a 53 carat and a 74 were found. A young lady sorting near us got an 8¼ afterwards, and I know of a 6, 15 and 16 carats today besides."

ITEMS IN BRIEF.—Mr E Brown, Mr McRoberts, Mr Chas Hughes, Mr W J Armstrong and Mr Holbrook are candidates for the local Legislature.........Rev Mr Reynard arrived on Sunday to assume the duties of Rector of the English Church at Nanaimo......Sixty pack animals and a large number of men have arrived at Cache Creek from Montana, bound for the mines.........The following passengers arrived on Sunday by the Enterprise:—Mrs Hides, Mrs Davison, Rev Reynard and wife, Rev Russ, Rev Clarkson, Capt Parsons, Capt McKinnon, Messrs Wm Fisher, H Nelson, F J Barnard, Mara, Johnson, Gerow, T Ladner, *C* F Cornwall, Dalby, Strouss, C Woods N Shaw, Dr T J Mills Bowden..........The news from Kootenay is meagre. Messrs Mara, Tod, Milby and Galbraith are candidates for the local House...........There are 22 men in Big Bend District......Messrs Semlin, Robinson and R Smith will be the winning candidates for Yale-Lytton.

THE steamer Emma, from the Douglas Whaling Station, reports 75 barrels of oil so far.

MANY of the strapped miners from Omineca were generously given a free passage down on the Otter.

Arrival of the Sparrowhawk with Lieut. Governor Trutch.

H M S Sparrowhawk has arrived at last with His Honor the Lieut Governor and family, after a boisterous passage of ten days. A greater contrast than between her passage down and her passage up could not well be imagined. The first was yachting; the last simply everything that could be disagreeable The Governor, Mrs Trutch, Miss Pinder, and Mr Griffin of the Dominion Postal Department, embarked at San Francisco on Thursday, 3rd August, and the ship proceeded to sea, encountering a strong northerly wind with a very heavy, confused sea, which increased towards evening to a gale, with thick, foggy weather. The ship stood off under fore-and-aft sails and easy steam, behaving very well under the trying circumstances, though the motion was unpleasant even to the most hardened salts on board. Owing to the thick, foggy weather it was thought advisable not to hug the coast too closely. Strong winds, which when they lulled were followed by a heavy, broken swell against which it was impossible to make any economical headway under steam, prevailed till Thursday, 10th inst, when it fell calm. Steam was got up, sails furled and course made to the north, but the wind coming on again and fuel falling short, it was decided to call at Astoria for a further supply. The bar was reached and a pilot taken in on Friday, too late to cross. Reached the wharf at Astoria on Saturday morning and took in a full supply of wood—no coal to be had—and left on Saturday afternoon, discharging pilot at about 5 p m. No further difficulty was experienced. Rounded Cape Flattery at 3·30 p m on Sunday and anchored at Esquimalt at 10·20 same night.

The little ship could scarcely be recognised by those who are acquainted with her usual trim appearance, and her figurehead—a graceful and spirited representation of the bird from which she takes her name—has lost both its wings. The ship looks both rusty and weatherbeaten.

The Lieut Governor, with Mrs Trutch and Miss Pinder, were driven by Mr J T Howard, Postmaster of Esquimalt, to Fairfield Cottage, which will be the Gubernatorial residence for the present.

The Lieut. Governor Sworn In.

Yesterday, at 1 o'clock, His Honor Lieut Governor Trutch was sworn in at the Supreme Court room before a large and interested assemblage. His Honor was attended by Private Secretary Musgrave, the Hon Mr Hankin, late Colonial Secretary, Acting Attorney General Alston and the gentlemen connected with the Civil Service. The appointment of Chief Justice Begbie and Judge Crease to be Commissioners of Canada for the administration of oaths to officers receiving appointments under the Dominion Government, was first read by Mr J J Austin, after which the commission of Mr Trutch as Lieut Governor was read by the Chief Justice. The customary oath of fealty to Her Majesty was next administered to the Lieut Governor and subsequently the oath of office. The Chief Justice then shook hands with His Honor and wished him much success in the administration of the Government of the Province of British Columbia. In passing out of the Courthouse the Lieut Governor was congratulated by many friends, who pressed forward to grasp his hand and warmly cheered him.

Post Office Affairs.

Gilbert E Griffin, Esq, Post Office Inspector of the Western Division of Canada, who came on the Sparrowhawk, will at once proceed to put Postal matters in this Province upon a satisfactory basis. Mr Griffin, who will remain in the Province a few weeks, has been thirty years in the Postal service of Canada and is a brother to Wm Henry Griffin, Deputy Postmaster General of the Dominion, and to Mr Griffin whose name has passed into history from his connection with the origin of the San Juan dispute. A contract has been made by Mr Griffin with the owners of the Prince Alfred for a semi-monthly mail service between San Francisco and Victoria, the steamer to leave San Francisco on the 1st and 15th of each month and to remain at least 48 hours at Victoria. The contract will last four month The Canadian Postal Rates come into operation to day, so that, in place of paying the late high rates, we shall pay on letters 3 cents to any part of the Province and Canada, and 6 cents to the United Kingdom and the United States. Postal cards may be had at the Post Office by means of which short messages may be sent to any part of Canada for one cent. The full postal rates were published in THE COLONIST a few days ago.

PUGET SOUND ITEMS.—The following is gleaned from the Seattle *Intelligencer* of yesterday: The Maxwell survey has demonstrated the practicability of tunneling Snoqualmie Pass. The tunnel will be a little over a mile in length and will lessen the grade and shorten the distance......William Andrews, an old resident of Seattle, died on the 8th..... Mr T G Murphy, late of the Alaska *Times*, has exchanged the 'quill' for the 'goose' having resumed the tailoring business ......The bark Moneynick sailed for San Francisco on Thursday with 360 tons of Seattle coal......The steam-tug Lively was'nt sold after all, but was handed over on an order from the Department at Washington, to the officers engaged in the coast survey......Nor has the Alaska *Times* shuffled off its mortal coil,—it was only sickish......Al W Pettygrove has been appointed Justice of the Peace for Port Townsend precinct......Laura Gordon is lecturing at the towns on Puget Sound. She is said to be very eloquent.

KOOTENAY ELECTION.—Four candidates are coming forward for this district, viz, Messrs Mara, Todd, Galbraith and Milby. Messrs Mara and Todd are, we understand, certain of election, having already secured pledges from a large majority of the registered voters. And it is well they should be elected, for they are both young men of good character, good parts and sound political views.

THE CELEBRATION.—Everything has been done with a view to rendering the celebration to-day worthy of the event it commemorates and worthy of the Capital of the Pacific Province of the Dominion. It only remains for the business people of this city to close their stores at noon and make a holiday of it.

THE Gussie Telfair arrived from Portland Oregon, last evening, bringing 30 passengers and a large freight of flour and other Oregon produce. She will sail to-morrow for Portland. Mr Goodhue, purser, has our thanks for favors conferred.

From the N W Coast—Arrival of the Otter.

The steamer Otter, Capt Lewis, arrived from the Northwest Coast yesterday morning. She visited Fort Simpson, Metlakatlah, Woodcock's Landing, Port Essington, Bella Bella, Fort Rupert, Alert Bay and Comox and brought down the following passengers: Messrs Macdonald, Dewdney, N Nelson, R Cunningham, P Cargotitch, Reid and forty nine miners. The water is still high and provisions very scarce in the mines. Most of the men who came down had to leave on that account. The trail was nearly completed to Babine Lake. Mr Bacon remained at Fort Rupert and Major Downie and Mr Davison at Bella Bella to prospect in the neighborhood. The Otter met the steamer Geo S Wright bound to Sitka, on Saturday afternoon in Finlayson's Canal. The Otter arrived at Port Essington on Tuesday at 4 o'clock p m where she landed freight and passengers. She was detained eighteen hours at Nanaimo and twelve hours at Queen Charlotte's Sound in a fog on her way up. Left Comox last night at 7 o'clock. Some of the men who arrived on the Otter had subsisted on 'flour straight' for five weeks before they gave up and started home. The arrival of two pack trains from Stuart's Lake was most timely, for had the arrival of food been delayed one week the population must have abandoned the diggings *en masse*. Mr Dewdney reports that Woodcock's trail is nearly through and will connect with the new trail at Stuart's Lake.

Indians found a man's body in the Skeena river, fifty miles above the mouth. It had light hair and only a belt on the body. It is supposed to have been the body of Oliver, previously reported drowned. The body found last month was that of an Indian.

BRITISH COLUMBIA SILVER.—The San Francisco *Alta* of August 3d, says:—Mr Kurtz of this city, yesterday kindly showed us a flat, rounded, smooth piece of silver, weighing 2½ ounces, and about 2x1½ inches in length and width, obtained on Peace River, B. C. Those familiar with coarse 'washed' gold, will understand its general appearance as regards form. Many bean-shaped pieces of silver have been found in the new diggings on that river, and curiously coarse gold and silver are found in the sluice boxes together. This is a most unusual circumstance. Indeed, it is entirely new in the experience of old miners, to find silver at all in the washed, worn down, smooth, nugget, which we have discribed; and Mr Kurtz's specimen is undoubtedly a great curiosity.'

COLONIAL SECRETARY HANKIN.—This gentleman, we understand, has accepted a pension of £533 per annum from the Canadian Government and will sail for England on the next steamer. Should the Imperial Government offer Mr Hankin employment it is understood that the pension will cease.

BLACK JACK GULCH GOLD.—Mr Peter Cargotitch has in his possession two ounces of gold from the new diggings on Black Jack Gulch. The gold is coarse and is said to resemble Lightning Creek dust.

PERSONAL.—An Ottawa cotemporary of the 15th July says:—Mr Rhodes, of the extensive mercantile firm of Janion & Rhodes, of Victoria V. I., and Portland, Oregon, is at the Russell House. Mr Rhodes' visit is for the purpose of opening business relations with Canada.

THE MAILS.—The Sparrowhawk brought the English, Canadian and American mails, which were brought up from Esquimalt at 5 o'clock yesterday morning by Mr Howard, the mail carrier.

THE American bark Atlanta, from Nanaimo with coal, arrived at Honolulu on the 13th July. After discharging the Atlanta will proceed to Australia for another cargo.

I. O. OF O. F.—*Mr* James Drummond has been appointed by Mr Louis Korn, District Grand Patriarch of California, Deputy District *Grand* Patriarch of British Columbia.

THE brig W Harrison, bound for the quarry at Nanaimo, from San Francisco, passed up on Sunday.

THE Enterprise resumes her semi-weekly trips to New Westminster to-morrow. The Lillooet will make two trips weekly till further notice.

AT CALLAO.—On the 22nd of June H M S Chanticleer lay at Callao, expecting orders from England, her Commission having expired.

THE bark Gem of the Ocean, 630 tons, which will load at Moody, Diety & Nelson's mills, for Valparaiso, receives $18 per M., gold.

THE French Mitrailleuse, captured at Weissenburg, is attracting much attention at San Francisco.

A LARGE NUMBER of volumes of Canadian Statutes, addressed to the Lieut-Governor, arrived yesterday by mail.

THE schooner North Star, with 20 barrels of dog and shark oil, from Howe Sound, arrived yesterday.

THE propeller Prince Alfred will sail from San Francisco to-day.

CIVIC and other addresses will probably be presented to Lieut Gov Trutch to-day.

PARIS, Aug 3—The press generally contend that the vote in the Assembly yesterday is a success, for advocates of prolongation of Thiers powers as the right was desirous of postponing the question indefinitely.

ROME, Aug 13—An encyclical letter has been issued by the Pope urging the faithful to offer prayers for freedom and the Holy See and tranquility of the Church.

LONDON, Aug 13—An improbable rumor is afloat to-night that Victor Emanuel has offered to restore the Quirinal to the Pope and enter into league with France and Spain to secure perfect independence.

A Constantinople dispatch contradicts a rumor of the death of the Grand Vizier.

LONDON, Aug 13—There was a meeting at Hyde Park to-day to protest against the suppression of the Phoenix Park meeting in Dublin, Sunday last; 20,000 persons were present. Speeches were made from six different stands; there were Communists and American flags and banners with Irish harp and suitable mottoes. Among the speakers were Messrs Brady and other most known orators. The crowd was of a better class than usually assembles on such occasions. It was was orderly and made no demonstrations of sympathy with speakers.

Bismarck decides that the Alsace school administration must henceforth be unsectarian.

NEW YORK, August 12—The HERALD'S Rome letter contains information that the Pope has selected the island of Corsica as the place of his future retreat, but it is thought that any determination on his part to leave Rome has not yet been made apparent and that Cardinal Antonelli has had a chateau at Cortiplace placed at the disposal of the Holy Father in the valley of Marseilles, which is being extensively fitted for his reception.

The publication of the Pope's letters against the revolutionary journals had diminished the sale of these sheets one half and their total disappearance at this rate will only take a short time. Notwithstanding this result, the revolutionists are at work with the newspaper organization and a new journal entitled 'Luther' has been projected, which is aimed at the destruction of the Pope.

That San Juan Map.

WHEN AND HOW IT WAS ISSUED.

A Washington special to the St Louis *Democrat* July 20th, has the following:

WASHINGTON, July 20th.—At last the Canadian newspapers have become so definite in their statements regarding the United States map they claim to have discovered, which represented the island of San Juan as wholly without our boundary, as to render the finding of the map they refer to an easy matter. It is already surmised by those acquainted with all the documents relating to the boundary dispute in the State Department, that it has no value whatever as evidence in this matter, and it does not even relate to it.

HISTORY OF THE MAP.

Its history is this: On February 2d, 1847, the Senate, on motion of Senator Benton authorized a contract with Charles Preuss for drawing a map of Upper California and Oregon from the materials collected by Col Fremont.

In the brief explanation made by Benton, there was no allusion to the boundary question, but the whole object was to correct former maps of the section actually explored by Fremont, and the Straits of Fuca were not even visited by him.

On the 8th of June 1848, on motion of Senator Benton, the following was passed.

Resolved, That the Secretary of State be authorized to contract for lithographing and printing 20,000 copies of J C Fremont's map of Oregon and California, reduced from the original copy according to the projection to be furnished by the said J C Fremont.

No remarks or debate of any kind attended the passage of this resolution. The map was lithographed as ordered, and attached to a House document of the 30th Congress. Its size is 29 by 33 inches, and the imprint is the following: 'Map of Oregon and Upper California, from the surveys of John Charles Fremont and other authorities, drawn by Charles Preuss, under order of the Senate of the United States." Upon it are traced Fremont's routes, and these now here in Oregon extend north of the valley of the Columbia.

The dotted line with colored shading through the strait of Juan De Fuca is laid down on the map as the Canadian press claims, but neither the map or accompanying texts of Fremont's make any claim to a survey of the channels or the islands in the straits. None of them are named, and the whole drawing of the topography of the straits is of a vague character. But this line whether drawn at venture or by design by Mr Preuss, was neither drawn from actual survey or from the notes of Col Fremont, and the Senate never took the least action of any kind upon this part of the map. It had never been used by either the United States or England in the long discussion of the San Juan question.

NOT SUPPRESSED.

So far from Government having tried to suppress this map, as the Canadians are claiming, it printed 20,000 copies, and it exists in all the regular files of the Senate and House, and was also mounted for the Committee rooms No one heretofore has regarded it as in any way bearing on the San Juan question.

FREMONT'S ALLUSION TO THE MAP.

The only allusion to the map by Col Fremont in the text of the geographical memoir to which it is attached is the following: The map of Oregon and California, presented with this memoir, is only a partial performance of the Senate order of February 2, 1847. That order contemplated a topographical and descriptive map, for which there is some material on hand, but not enough to complete the work on the plan required, or in a way to do justice to the subject. As now laid before the Senate, it may be assumed to be the best that has as yet appeared, but is still imperfect and incomplete.

TO ALL WHOM IT MAY CONCERN;

NOTICE IS HEREBY GIVEN IN CONFORMITY with a resolution passed by the Municipal Council on the 30th day of May, 1871, that if the Real Estate Rates above specified, with interest thereon, be not paid within 30 days from the publication hereof, the same will be registered in the Office of the Registrar General of Titles for British Columbia and bear interest from the date of such registration at the rate of 18 per centum per annum, in addition to the costs of such registration, under the provisions of "The Victoria Municipal Ordinance, 1867," "The Victoria Municipal Amendment Ordinance, 1869," and "The Municipal by-Laws thereunder.

By order of the Mayor and Council,
WILLIAM LEIGH,
jy28 Clerk of the Municipal Council.

YALE ELECTORAL DISTRICT.

YALE, B C, July 1st, 1871.

To the Electors of Yale Lytton District,

GENTLEMEN:—Having been solicited by a num er of the Electors of this district to allow myself to be placed in nomination as a candidate for a seat in the Legislative Assembly of this Province in the coming election, I take this early opportunity to thank you for your manifested confidence and to say that, in view of the many important changes which we sincerely hope for under Confederation the necessity of which is so plainly marked by past experience, it becomes the duty of each and every one to be awake in the morning, give every attention and to use every legitimate effort while shaping our new course to secure a good and economical Government Therefore I have determined to allow myself to be placed in nomination. My interests being identical with yours and having the advancement and welfare of the whole province at heart, I would advocate in every thing economy, the abolition of road tolls, the improvement of our school system, the opening up of the Kamloops and Okanagan country by wagon roads, increased postal facilities, and the organization of such a land system as would meet the requirements of the country.

I have the honor to be, your serv't,
y2daw JAMES ROBINSON.

The San Juan Lime Kiln, owing to the Death of one of the Proprietors,

MUST BE SOLD.

THIS KILN, BUILT IN 1870. AT A COST of $2700, is the best on the coast and is capable of burning 60 barrels a day. The San Juan lime has gained the reputation of being

THE BEST ON THE COAST.

There are 320 acres of land furnishing an inexhaustible supply of limestone and firewood. The land is situated on the e-st side of the island and has a

WATER FRONTAGE OF ONE MILE.

The Kiln is built on the beach above high water mark and the stone is 'dumped' from the Ledge into the Kiln. No hauling of stone or lime is required. There is also in connection with the Lime Kiln

One large commodious two-story Dwelling House furnished, one Blacksmith Shop, with complete set of tools, one Cooper shop with complete set of tools, three log Dwelling Houses, 1230 barrels, 69 cords of wood, one two-horse Wagon—new—and 3 wheelbarrows, and all the tools and implements necessary to carry on the business. To a Joint Stock Company great inducements are offered.

Everything is so complete that lime can be drawn from the kiln three days from the time work is commenced. The location of the

Terminus of the Northern Pacific R.R.

In July next and the consequent building of a large city on the Sound must create such a demand for lime as will make this the most profitable property on the coast.

Medical.

ELECTRICITY IS LIFE.

PULVERMACHER'S

PATENT GALVANIC

CHAIN BANDS, BELTS

AND

Pocket Batteries.

THESE REMARKABLE AND HIGHLY improved inventions render Electricity perfectly self-applicable, and extremely efficacious in a mild continuous form, no shock or unpleasant sensation being experienced, whereby it becomes a true fountain of health and vigor, speedily soothing agonising pains, re-animating torpid limbs, reviving the sluggish functions of life and imparting renewed energy and vitality to constitutions enfeebled by whatever cause. Medicines and their deleterious consequences are thus entirely dispensed with. The daily increasing number of cures effected by PULVERMACHER'S MEDICO-GALVANIC SYSTEM is so extensive and varied, that it forcibly points to this invention a the embryo of the universal remedy.

N. B—The following testimony from the ELITE of the English medical faculty has been received:

"We, the undersigned, have much pleasure in testifying that Mr J L PULVERMACHER's recent improvements in his Voltaic Batteries and Galvanic Appliances for Medical Purposes, are of great importance to scientific Medicines and that he is entitled to the consideration and support of everyone disposed to further the advancement of real and useful progress.

Dated this 9th day of March, 1866.
Sir Charles Locock, Bart., M O, F R C P.
Sir Henry Holland, Bart., M D., F R S.
Sir Wm Ferguson, Bart. F R S.
Edward H. Sieveking, M D, M R C S.
Sir J. Ranald Martin, F R C S."

PULVERMACHER'S SYSTEM is also approved of by an official report of the Academie de Medicine, Paris; Royal College of Physicians, London; and the Imperial Faculty, Vienna, and its curative virtues are confirmed by thousands of private testimonials of cures effected. (See pamphlet, gratis).

These facts appeal to the good sense of every sufferer to avail himself of this scientific and curative progress, to which the inventor has devoted a lifetime of study and labour, as an ardent disciple of that great benefactor of mankind, the late illustrious electrician, MICHAEL FARADAY

PULVERMACHER'S MEDICO-GALVANIC CHAIN are exceedingly effective without the aid of medicine, restriction of diet, or the least derangement of the patient's habits and daily occupations. in the following maladies:—

Rheumatism,	Tic Doloreux,	Sluggish circula'n,
Gout,	Indigestion,	Urinary Disorder
Sciatica	Deafness,	Paralysis,
Lumbago,	Spasms,	Epilepsy,
Neuralgia,	Female complaint	Nervous Debility
Head & Toothaches	Constipation,	Functional Disorders, &c
Liver Complaints,	Cramp,	

The effects of the application of Pulvermacher's Chains in any of the above disorders is immediately perceptible—the relief of pain instantaneous.

CAUTION A Perpetual Injunction in Chancery, dated 18th August 1869, was granted to J L Pulvermacher against Alfred Farrows, alias C D Hammond, alias Henry James, alias C D Rapsbey, his assistants, agents and servants restraining the said person or persons under a penalty of £5000 from deceitfully advertising Belts, &c., exclusively representing them as electric. This decree is printed in extenso in Pulvermacher's Pamphlet of recent Testimonials and Medical Reports of cures, containing likewise numerous extracts from many standard and scientific works, viz. Dr Qercira's 'Materia Medica," Dr Tanner's 'Practice of Medicine," Dr Handfield Jones "On Nervous and Functional Disoders, etc." This pamphlet may be had at the office of this Paper, or of J L Pulvermacher's Galvanic Establishment, 200 Regent St London.

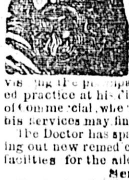
New Remedies! New Remedies!

DR. GIBBON'S DISPENSARY



No 623 Kearney Street Corner Commercial, San Francisco, established in 1854, for the treatment of Sexual and Seminal Diseases, such as Gonorrhea, Gleet, Stricture, Syphilis in all its forms, Seminal Weakness, Impotency, etc., etc. Skin diseases of years standing, and Ulcerated Legs etc., successfully treated.

DR. GIBBON has the pleasure of anouncing that he has returned from visiting the principal hospitals of Europe, and has resumed practice at his dispensary, 623 Kearney street, corner of Commercial, where his old patients and those requiring his services may find him.

The Doctor has spared neither time nor money in seeking out new remedies, and has returned with increased facilities for the alleviation of human suffering.

Seminal Weakness.

Seminal emission is the consequence of self-abuse. This solitary vice, or depraved sexual indulgence is practiced by the youth of both sexes to an unlimited extent, producing with unerring certainty the following train of morbid symptoms, unless combatted by scientific medical measures, viz: Shallow countenance dark spots under the eyes, pain in the head, ringing in the ears, noise like a rattling of leaves, or rattling chariots, uneasiness about the lions, weakness of the limbs, confused vision, blunted intellect, loss of confidence, diffidence in approaching strangers, a dislike to form new acquaintances, a disposition to shun society, loss of memory, pimples, and various eruptions about the face, hectic flushes, furred tongue fœtid breath, consumption, night sweats, monomania and frequently insanity. If relief be obtained, you should apply immediately, either in person or by letter, and have a cure effected by his new and scientific mode of treating this disease, which never fails of effecting a quick and radical cure.

Cured at Home.

Persons at a distance may be cured at home, by addressing a letter to Dr Gibbon, case, symptoms, length of time the disease has continued, and have medicine promptly forwarded, free from damage and curiosity, to any part of the country, with full and plain direction for use by inclosing $10 in coin, in a registered letter, through the Postoffice or through Wells, Fargo & Co.

A package of medicine will be forwarded by express to any part of the Union.

Persons writing to the Doctor will please state the name of the paper they see this advertisement in.

Private entrance on Commercial street.

All communications strictly confidential.
